Rupert,
The excel file which contains the graphs for the Methane, ORP, and Manganese values has been uploaded to the old Dimock website. Joe Carter completed the graphs, so if you have any specific questions relating to the file please let him know.
Thanks,

Suddha Graves

Subject: for Monday

Hi,
Did you already give me the ferrous iron values for the well testing? If you did please remind which document they are in, and if you didn't can you get someone to put them together and get them to me please.
Thought you might be a bit interested, remember the chart I wanted created? I ended up doing it myself after some less than satisfactory results. Attached is a copy of the latest I came up with. It still needs work though.
